SUBJECT INDEX, VOLUME 27

A

PAGE

A numerical taxonomic study of *Portulaca oleracea* 96
Absorption of triclopyr and tanoak leaf surface characteristics . . . 599
Abutilon theophrasti competition with soybean, effect of planting date on 183
Abutilon theophrasti, effects of chilling 473
Acacia farnesiana, distribution of triclopyr and picloram in 527
Adsorption and diffusion of dinitroaniline herbicides in soils 450
Adsorption coefficients to predict fluridone herbicidal activity in soil 456
Aeschynomene virginica, control with fungal pathogens 497
Agropyron repens control in alfalfa with pronamide, effects on forage quality and animal performance 127
Agropyron repens residues, phytotoxic effect 595
Alachlor selectivity on snap beans, environmental and edaphic influence on 570
Alfalfa, herbicides on nitrogen fixation 18
Alfalfa, quackgrass control with pronamide, effects on forage quality and animal performance 127
Allelopathic cucumbers as an aid to weed control 54
Allelopathy of leafy spurge (*Euphorbia esula*) 1
Alternaria macrospora as biocontrol agent for spurred anoda 612
Amaranthus retroflexus, interference in soybeans 665
Amaranthus retroflexus, seasonal analysis of nonstructural carbohydrates 374
Amaranthus susceptibility to napropamide 189
American germander (*Teucrium canadense*) control in corn (*Zea mays*) 615
Analysis of nonstructural carbohydrates in redroot pigweed (*Amaranthus retroflexus*) and robust foxtail (*Setaria viridis* var. *robusta*) throughout the growing season 374
Animal performance, quackgrass control in alfalfa with pronamide 127
Anoda cristata, Alternaria macrospora as potential biocontrol agent for 612
Anoda cristata, effects of chilling 473
Anoda, spurred, *Alternaria macrospora* as potential biocontrol agent 612
Anoda, spurred, effects of chilling 473
Antagonistic effects of desmedipham on diclofop activity 539
Aphanomyces euteiches of pea, suppression by dinitroanilines . . . 467
Apocynum cannabinum, distribution, competition, and phenology in Nebraska 565
Apocynum cannabinum, foliar entry of glyphosate 426
Applicator, roller, electronic moisture sensor for maintaining herbicide solution 559
Asulam controls western bracken (*Pteridium aquilinum*) on forest land in western Oregon 589
Atrazine, establishment of pine transplants in grass stands with . . . 253
Atrazine on photochemical reactions of isolated chloroplasts 300
Avena fatua control with flufenprop-methyl 91
Avena fatua, diclofop-methyl and MCPA interaction on 202
Avena fatua, response to diclofop-methyl 212
Avena sativa, dinitroaniline herbicides in 371

B

Bactra verutana, for control of purple and yellow nutsedge in the greenhouse 178
Bahiagrass (*Paspalum notatum*) and common lespedeza (*Lespedeza striata*) control with herbicides in centipedegrass (*Eremochloa ophiuroides*) 346
Balloonvine germination 73
Beans, snap, environmental and edaphic infuences on alachlor selectivity on 570
Benefin degradation in thatch and soil of Kentucky bluegrass turf . 154
Bermudagrass, control of annual bluegrass in 367
Bermudagrass, control of annual bluegrass in golf greens of 642
Bermudagrass turf, vertical mowing and herbicide treatments on thatch 14
Beta vulgaris response to dinitramine 28
Beta vulgaris, weed control with cycloate and ethofumesate 516
Bindweed, field, control in winter wheat 332
Biocontrol agent, *Alternaria macrospora* for spurred anoda 612
Biocontrol of purple and yellow nutsedge with *Bactra verutana* in the greenhouse 178
Biological control of weeds by insects in Canada 242
Biosynthesis of gibberellin, EPTC induced modification of 270
Bluegrass, annual, control in bermudagrass 367
Bluegrass, annual, control in bermudagrass golf greens 642
Bluegrass, Kentucky, turf, degradation of benefin and DCPA 154
Bluegrass, Kentucky, turf, preemergence herbicide activity in 141
Board of directors, WSSA, major actions, February 1979 578
Bracken cntrol with asulam on Oregon forest land 589
Brassica rapa and *B. napus*, response to diclofop-methyl 212
Brome, downy, influence of soil moisture, temperature, and compaction on germination and emergence of 625
Bromus tectorum, influence of soil moisture, temperature, and compaction on germination and emergence of 625
Business meeting, minutes, WSSA, February, 1979 579

C

Canada, biological control of weeds by insects 242
Carbohydrate analysis in redroot pigweed and robust foxtail 374
Cardiospermum halicarcabum germination 73
Carduus nutans, control with dicamba; picloram; 2,4-D 651
Carduus pycnocephalus, germination characteristics 327
Carduus tenuiflorus, germination characteristics 327
Carthamus tinctorius, persistence of annual-applied herbicides in winter-planted crop 655
Carya illinoensis plantings, weed control in 638
Cassia response to preemergence applied herbicides 531
Cations and sorption of picloram by soil 257
Cations with diquat, for control of hydrilla 115
Cell suspensions of white clover, metabolism of 2,4-DB by 392
Cell suspensions of white clover, degradation of phenoxyalkylcarboxylic acids by 389
Cellulase activity, enhancement by glyphosate in *Phaseolus vulgaris* .103
Centipedegrass, control of bahiagrass and lespedeza in 346
Chilling on cotton, velvetleaf, and spurred anoda 473
Chilling on itchgrass, corn, and soybean 645
Chlorella growth and photosystem II inhibiton 232
Chlorella, effects of fluometuron and MSMA on 294
Chloroplasts, isolated, effects of atrazine, cyanazine, procyazine on photochemical reactions of 300
Chloroplasts, pea, glyphosate does not inhibit photosynthetic electron transport and phosphorylation in 684
Chlorpropham movement in soil for control of dodder 274
Cirsium arvense, germination and seedling develcpment 146
Clover, red, herbicides on nitrogen fixation of 18
Clover, white, cell suspension, metabolism of 2,4-DB by 392
Clover, white, cell suspensions, degradation of phenoxyalkylcarboxylic acids by 389
CO_2 equilibrium as influenced by soybean postemergence herbicides 545
CO_2 production enhancement by glyphosate in *Phaseolus vulgaris* . 103
Cocklebur, common, growth and water use 206
Cocklebur, common, plant water stress of 285
Combinations of diquat and several cations for control of hydrilla (*Hydrilla verticillata*) 115
Compaction on germination and emergence of downy brome 625

C (Cont.)

Comparative biocontrol of purple nutsedge (*Cyperus rotundus*) and yellow nutsedge (*C. esculentus*) with *Bactra verutana* under greenhouse conditions . . . 178
Comparison of four cropping systems for yellow nutsedge (*Cyperus esculentus*) control . . . 463
Comparisons of dicamba, picloram, and 2,4-D for musk thistle (*Carduus nutans*) control . . . 651
Competition and control of nutsedge in corn . . . 32
Competition, growth and water use by common cocklebur and soybeans . . . 206
Competition of cutleaf groundcherry in soybeans . . . 133
Competition of hemp dogbane in Nebraska . . . 565
Competition of velvetleaf, effect of planting date on soybean . . . 183
Control of annual bluegrass (*Poa annua*) in overseeded bermudagrass (*Cynodon* spp.) golf greens . . . 642
Control of cutleaf groundcherry in soybeans . . . 133
Control of field bindweed (*Convolvulus arvensis*) in winter wheat (*Triticum aestivum*) with foliar and subsurface layered herbicides . . . 332
Control of honey mesquite (*Prosopis juliflora* var. *glandulosa*) and Macartney rose (*Rosa bracteata*) with soil-applied herbicides . . . 280
Control of hydrilla with diquat . . . 115
Control of *Poa annua* by suppression of seedheads with growth regulators . . . 224
Control of tall ironweed and renovation of pastures . . . 342
Control of weeds in woody ornamentals, using oxadiazon . . . 396
Control of wild oat . . . 91
Control of winged waterprimrose (*Jussiaea decurrens*) and Northern jointvetch (*Aeschynomene virginica*) with fungal pathogens . . . 497
Convolvulus arvensis, control in winter wheat . . . 332
Corn, american germander control in . . . 615
Corn, control of yellow nutsedge in . . . 32
Corn, effects of simulated field temperatures and chilling on . . . 645
Corn, EPTC effects on growth and endogenous gibberellins . . . 122
Corn, EPTC plus R-25788 injury as affected by plant age at treatment . . . 460
Corn, prevention of EPTC-induced wax aggregation on, with R-25788 . . . 47
Corn, sweet, grown on coarse-textured soils, effects of herbicides on . . . 608
Corylus cornuta understories, effects of fire and 2,4-D on . . . 162
Cost of biological control of weeds by insects in Canada . . . 242
Cotton, effects of chilling . . . 473
Cotton, growth inhibition of roots and shoots by dinitroanilines . . . 336
Cotton, influence of fluridone on early development of . . . 321
Cotton response to dicamba . . . 604
Cotton, weed and disease responses to herbicides . . . 444
Crop-herbicide rotation for johnsongrass control . . . 479
Cropping systems for yellow nutsedge control . . . 463
Crotalaria, showy, seed coat impermeability and germination of . . . 355
Crotalaria spectabilis, seed coat impermeability and germination of . . . 355
Cucumbers, allelopathic, an aid to weed control . . . 54
Cucumis sativus, allelopathic, an aid to weed control . . . 54
Cultivar, soybean growth as affected by . . . 562
Cuscuta control by chlorpropham application to soil . . . 274
Cyanazine application, soybeans as rescue crop after . . . 263
Cyanazine on photochemical reactions of isolated chloroplasts . . . 300
Cycloate, weed control in sugarbeets . . . 516
Cynodon dactylon, control of annual bluegrass in . . . 367
Cynodon dactylon turf, vertical mowing and herbicide treaments on thatch . . . 14
Cynodon spp., control of annual bluegrass in golf green of . . . 642
Cyperus esculentus competition and control in corn . . . 32
Cyperus esculentus control by cropping systems . . . 463
Cyperus esculentus, control wtih *Bactra verutana* in the greenhouse . . . 178
Cyperus esculentus, seed production and germination . . . 502
Cyperus rotundus, control with *Bactra verutana* in the greenhouse . . . 178
Cyperus rotundus, seed production and germination . . . 502

D

DCPA degradation in thatch and soil of Kentucky bluegrass turf . . . 154
Degradation of benefin and DCPA in thatch and soil from a Kentucky bluegrass (*Poa pratensis*) turf . . . 154
Degradation of phenoxyalkylcarboxylic acids by white clover (*Trifolium repens*) cell suspensions . . . 389
Desmedipham on diclofop activity . . . 539
Detection of fluridone in soil . . . 309
Determination and characterization of the effects of fluometuron and MSMA on *Chlorella* . . . 294
Dicamba, for musk thistle control . . . 651
Dicamba, response of cotton to . . . 604
Dicamba volatility . . . 486
Diclofop activity, desmedipham on . . . 539
Diclofop-methyl and MCPA interaction on wild oats . . . 202
Diclofop-methyl, response of wild oat, flax, and rapeseed to . . . 212
Diclofop, soil-incorporated, moisture on . . . 83
Differential metabolism of metribuzin by two soybean (*Glycine max*) cultivars . . . 267
Differential susceptibility of two pigweed (*Amaranthus* spp.) species to napropamide . . . 189
Diffusion of dinitroaniline herbicides in soils . . . 450
Dinitramine, response of sugarbeets and weeds to . . . 28
Dinitroaniline suppression of pea root rot . . . 195
Dinitroaniline herbicide applications, rotational crop response to . . . 312
Dinitroaniline herbicide phytotoxicity as influenced by soil moisture and herbicide vaporization . . . 536
Dinitroaniline herbicides in oats and peas . . . 371
Dinitroaniline herbicides in soils, adsorption and diffusion of . . . 450
Dinitroaniline herbicides, persistence in soil . . . 660
Dinitroanilines, growth inhibition of cotton and soybean roots and shoots . . . 336
Dinitroanilines, suppression of pea root rot by . . . 467
Diphenylether herbicide oxyfluorfen, light requirement of . . . 88
Diquat, in combinations, for control of hydrilla . . . 115
Directions for contributors to WEED SCIENCE journal articles . . . 139
Disease responses to herbicides in cotton . . . 444
Distribution, competition, and phenology of hemp dogbane (*Apocynum cannabinum*) in Nebraska . . . 565
Distribution of itchgrass . . . 77
Distribution of triclopyr and picloram in huisache (*Acacia farnesiana*) . . . 527
Dodder control by chlorpropham application to soil . . . 274
Dogbane, hemp, distribution, competition, and phenology in Nebraska . . . 565
Dogbane, hemp, foliar entry of glyphosate . . . 426

E

Edaphic influences on selectivity of alachlor on snap beans . . . 570
Effect of incorporation methods and time of application on the performance of trifluralin plus metribuzin . . . 64
Effect of photosystem II inhibitors on thylakoid membranes of two common grounsel (*Senecio vulgaris*) biotypes . . . 216
Effect of selected herbicides on production of southern pines (*Pinus* spp.) in nursery seedbeds . . . 173
Effect of soil organic matter on the phytotoxicity of thirteen *s*-triazine herbicides . . . 158
Effect of temperature and photoperiod on triclopyr, picloram, and 2,4,5-T translocation . . . 22
Effectiveness of herbicide programs for annual bluegrass (*Poa annua*) control in bermudagrass (*Cynodon dactylon*) . . . 367
Effects of atrazine, cyanazine, and procyazine on the photochemical reactions of isolated chloroplasts . . . 300
Effects of chilling on cotton (*Gossypium hirsutum*), velvetleaf (*Abutilon theophrasti*), and spurred anoda (*Anoda cristata*) . . . 473
Effects of fire and 2,4-D on the early stages of beaked hazel (*Corylus cornuta*) understories . . . 162
Effects of frost and maturity on glyphosate phytotoxicity, uptake, and translocation . . . 110

E (Cont.)

Effects of herbicides on nitrogen fixation of alfalfa (*Medicago sativa*) and red clover (*Trifolium pratense*) 18
Effects of herbicides on weeds and sweetcorn (*Zea mays*) grown on coarse-textured soils 608
Effects of illuminance and time on accumulation of glyphosate in johnsongrass (*Sorghum halepense*) 235
Effects of metolachlor on germination, growth, leucine uptake, and protein synthesis 634
Effects of simulated field temperatures and chilling on itchgrass (*Rottboellia exaltata*), corn (*Zea mays*), and soybean (*Glycine max*) . 645
Effects of water quality and spray volume on glyphosate phytotoxicity. 38
Effects of wetting agent, stage of growth, and species on the selectivity of diclofop 679
Efficacy and rotational crop response to levels and dates of dinitroaniline herbicide applications 312
Electron transport, photosynthetic, in pea chloroplasts, glyphosate does not inhibit 684
Electronic moisture sensor for maintaining herbicide solution on a roller applicator 559
Eleocharis coloradoensis, development and germination of 380
Eleocharis coloradoensis seed and tuber survival after exposure to extreme temperatures 434
Emergence and germination of hemp sesbania. 290
Enhancement of CO_2 and ethylene production and cellulase activity by glyphosate in *Phaseolus vulgaris* 103
Environment, effect on toxicity of metriflufen to soybeans and johnsongrass 675
Environmental and edaphic influences on the selectivity of alachlor on snap beans (*Phaseolus vulgaris*) 570
EPTC effects on corn (*Zea mays*) growth and endogenous gibberellins 122
EPTC induced modification of gibberellin biosynthesis 270
EPTC-induced wax aggregation, prevention on corn with R-25788 . 47
EPTC plus R-25788 injury to corn (*Zea mays*) as affected by plant age at treatment 460
Eremochloa ophiuroides, control of bahiagrass and lespedeza in . . 346
Erratum 696
Establishment of pine (*Pinus* spp.) transplants in perennial grass stands with atrazine. 253
Ethofumesate, weed control in sugarbeets 516
Ethylene production enhancement by glyphosate in *Phaseolus vulgaris* 103
Ethylene, response of weed seeds to 7
Euglena gracilis reactions to fluometuron, MSMA, metribuzin, and glyphosate 619
Euphorbia esula allelopathy 1
Euphorbia esula distribution in United States 509
Euphorbia esula, reproductive biology studies. 106
Euphorbia weedy species, distribution in United States 509
Evaluation of allelopathic cucumbers (*Cucumis sativus*) as an aid to weed control. 54
Evaluation of *Alternaria macrospora* as a potential biocontrol agent for spurred anoda (*Anoda cristata*): host range studies 612
Exchangeable cations and picloram sorption by soil and model adsorbents 257

F

Fababeans, fall and spring applications of trifluralin and metribuzin in 691
Factors affecting the suppression of pea (*Pisum sativum*) root rot (*Aphanomyces euteiches*) by dinitroaniline herbicides 467
Fall and spring applications of trifluralin and metribuzin in fababeans (*Vicia faba*) 691
Fire effects on beaked hazel understories 162
Flax, response to diclofop-methyl 212
Flufenprop-methyl, for control of wild oat 91
Fluometuron, *Euglena gracilis* reactions to 619
Fluometuron on *Chlorella* 294
Fluridone action in isolated mesophyll cells 422
Fluridone activity, prediction by adsorption coefficients and soil properties 456
Fluridone detection and mobility in soil 309
Fluridone persistence in soils under field and controlled conditions 631
Fluridone uptake, on early development of soybean and cotton. . . 321
Foliar entry of glyphosate in hemp dogbane. 426
Foliar herbicides, for control of field bindweed in winter wheat . . 332
Foliar nitrogen loss and CO_2 equilibrium as influenced by three soybean (*Glycine max*) postemergence herbicides 545
Forage quality and animal performance as influenced by quackgrass (*Agropyron repens*) control in alfalfa (*Medicago sativa*) with pronamide 127
Forest land, bracken control with asulam 589
Foxtail, robust, interference in soybeans. 665
Foxtail, robust, seasonal analysis of nonstructural carbohydrates. . 374
Fragaria × *ananassa*, glyphosate and paraquat for interrow weeding of 385
Frost on glyphosate phytotoxicity, uptake, and translocation . . . 110
Fungal pathogens, control of winged waterprimrose and Northern jointvetch with 497

G

Galenia pubescens, toxicological investigations 506
Germander, american, control in corn 615
Germination and development of dwarf spikerush 380
Germination and emergence of balloonvine (*Cardiospermum halicacabum*) 73
Germination and emergence of hemp sesbania (*Sesbania exaltata*) 290
Germination and seedling development of Canada thistle (*Cirsium arvense*) 146
Germination characteristics of Italian thistle (*Carduus pycnocephalaus*) and slenderflower thistle (*Carduus tenuiflorus*) 327
Germination, control, and competition of cutleaf groundcherry (*Physalis angulata*) in soybeans (*Glycine max*) 133
Germination, effects of metolachlor on 634
Germination of *Cyperus esculentus* and *C. rotundus* 502
Germination of showy crotalaria seeds 355
Gibberellin biosynthesis, EPTC induced modification of. 270
Gibberellins, endogenous, in corn, EPTC effects on 122
Glycine max as a rescue crop following cyanazine and procyazine application. 263
Glycine max, control of cutleaf groundcherry. 133
Glycine max, control of johnsongrass 119
Glycine max on velvetleaf competition. 183
Glycine max, effects of simulated field temperatures chilling on . . 645
Glycine max, growth and water use. 206
Glycine max growth as affected by weed removal, cultivar, and row spacing 562
Glycine max, growth inhibition of roots and shoots by dinitroanilines 336
Glycine max, hemp sesbania competition in 58
Glycine max, influence of fluridone on early development of. . . . 321
Glycine max, insecticide-herbicide combinations on 51
Glycine max, interference of redroot pigweed and robust foxtail in 665
Glycine max, metabolism of metribuzin 267
Glycine max, metriflufen toxicity to 675
Glycine max, plant water stress of 285
Glycine max postemergence herbicides, foliar nitrogen loss and CO_2 equilibrium as influenced by. 545
Glycine max response to metribuzin 278
Glycine max response to propanil. 4
Glycine max responses to metribuzin. 192
Glycine max weed control and yield by seedbed tillage and herbicides 520

G (Cont.)

Glycine max, weed control with mefluidide 42
Glyphosate accumulation in johnsongrass 235
Glyphosate and paraquat for interrow weeding of strawberries (*Fragaria* × *ananassa*) 385
Glyphosate, crop response in irrigation water 658
Glyphosate does not inhibit photosynthetic electron transport and phosphorylation in pea (*Pisum sativum*) chloroplasts. 684
Glyphosate, effects of frost and maturity on 110
Glyphosate, enhancement of CO_2 and ethylene production, cellulase activity in *Phaseolus vulgaris*. 103
Glyphosate, *Euglena gracilis* reactions to. 619
Glyphosate, foliar entry in hemp dogbane 426
Glyphosate-induced tillering, reduction in sorghum by chemicals . . 69
Glyphosate phytotoxicity, inhibition of 575
Glyphosate phytotoxicity, water quality and spray volume on 38
Golf greens of bermudagrass, control of annual bluegrass in. 642
Gossypium hirsutum, effects of chilling 473
Gossypium hirsutum, growth inhibition of roots and shoots by dinitroanilines 336
Gossypium hirsutum, influence of fluridone on early development of 321
Gossypium hirsutum response to dicamba 604
Gossypium hirsutum, weed and disease responses to herbicides. . . 444
Grain production and weed control, long-term picloram effect on . 493
Grass stands, establishment of pine transplants with atrazine in. . . 253
Grasses, cool-season, affected by selected herbicides. 415
Groundcherry, cutleaf, control in soybeans 133
Groundsel, common, effect of photosystem II inhibitors on thylakoid membranes of 216
Growth and water use by common cocklebur (*Xanthium pensylvanicum*) and soybeans (*Glycine max*) under field conditions 206
Growth, effects of metolachlor on 634
Growth inhibition of cotton (*Gossypium hirsutum*) and soybean (*Glycine max*) roots and shoots by three dinitroaniline herbicides 336
Growth of itchgrass, shading effects 549
Growth of johnsongrass from seed, influence of planting date on. . 554
Growth regulators, *Poa annua* control by seedhead suppression with 224
Growth retardants, plant, injection methodology for. 668
Growth stage effects on diclofop selectivity 679

H

Hazel, beaked, understories, effects of fire and 2,4-D on 162
Hemp sesbania (*Sesbania exaltata*) competition in soybeans (*Glycine max*) 58
Herbaceous weed control with hexazinone in loblolly pine (*Pinus taeda*) plantations. 583
Herbicide-crop rotation for johnsongrass (*Sorghum halepense*) control 479
Herbicide influence on soybean weed control 520
Herbicide-insecticide combinations on soybeans 51
Herbicide persistence in safflower. 655
Herbicides, effects on cool-season grasses 415
Herbicides, effects on nitrogen fixation of alfalfa and red clover . . . 18
Herbicides for renovation of pastures and control of tall ironweed (*Vernonia altissima*) 342
Herbicides in cotton, weed and disease responses to 444
Herbicides on production of southern pines 173
Herbicides on sensitivity of tobacco to ozone 167
Herbicides on weeds and sweetcorn grown on coarse-textured soils. 608
Hexazinone, weed control in loblolly pine. 583
Huisache, distribution of triclopyr and picloram in. 527
Hydrilla, control with diquat in combinations. 115
Hydrilla verticillata, control with diquat in combinations 115
Hydrocarbons, response of weed seeds to 7
Hydroxysimazine residues in orchard soil 238

I

Illuminance and time on glyphosate accumulation in johnsongrass . 235
Influence of moisture on soil-incorporated diclofop 83
Influence of planting date on the growth of johnsongrass (*Sorghum halepense*) from seed 554
Influence of site of uptake of fluridone on early development of soybean (*Glycine max*) and cotton (*Gossypium hirsutum*) . . . 321
Influence of soil moisture, temperature, and compaction on the germination and emergence of downy brome (*Bromus tectorum*). . . 625
Influence of soybean (*Glycine max*) planting date on velvetleaf (*Abutilon theophrasti*) competition 183
Influence of thatch on preemergence herbicide activity in Kentucky bluegrass (*Poa pratensis*) turf 141
Inhibition of glyphosate phytotoxicity. 575
Inhibition of photosystem II and *Chlorella* growth by 1-(m-*t*-butylacetamidophenyl)-3-methyl-3-methoxy urea 232
Inhibitors of photosystem II on thylakoid membranes of groundsel 216
Injection methodology for evaluating plant growth retardants . . . 688
Insecticide-herbicide combinations on soybeans 51
Insects, biological control of weeds in Canada. 242
Interaction of diclofop-methyl and MCPA on wild oats (*Avena fatua*) 202
Interaction of selected insecticide-herbicide combinations on soybeans (*Glycine max*) 51
Interference of redroot pigweed (*Amaranthus retroflexus*) and robust foxtail (*Setaria viridis* var. *robusta-alba* or var. *robusta-purpurea*) in soybeans (*Glycine max*) 665
In vivo and in vitro characterization of the foliar entry of glyphosate in hemp dogbane (*Apocynum cannabinum*) 426
Ipomoea response to preemergence applied herbicides. 531
Irrigation water, crop response to glyphosate in 658
Ironweed, tall, control in pastures 342
Itchgrass, distribution and temperature responses. 77
Itchgrass, effects of simulated field temperatures and chilling on . . 645
Itchgrass, shading effects on growth and photosynthetic capacity . 549

J

Johnsongrass control, herbicide-crop rotation for 479
Johnsongrass, illuminance and time on glyphosate accumulation in. 235
Johnsongrass, influence of planting date on growth from seed . . . 554
Johnsongrass, metriflufen toxicity to. 675
Johnsongrass, spotspraying for control in soybeans. 119
Jointvetch, Northern, control with fungal pathogens. 497
Jussiaea decurrens, control with fungal pathogens 497

K

L

Leaf movements of weeds 401
Leaf surface characteristics of tanoak and absorption of triclopyr . 599
Lespedeza control in centipedegrass 346
Lespedeza striata control in centipedegrass 346
Leucine uptake, effects of metolachlor on. 634
Light measurement in weed studies – a review 437
Light requirement of the diphenylether herbicide oxyfluorfen 88
Linum usitatissimum, response to diclofop-methyl. 212
Lithocarpus densiflorus leaf surface characteristics and absorption of triclopyr 599
Lycopersicon esculentum, weed interference in. 11

M

Major actions of the Board of Directors, WSSA, February, 1979 . . 578
Major actions of the executive committee 696
Maturity on glyphosate phytotoxicity 110
MCPA on wild oats 202

M (Cont.)

Mechanism for the suppression of pea (*Pisum sativum*) root rot by dinitroaniline herbicides . . . 195
Medicago sativa, herbicides on nitrogen fixation of . . . 18
Medicago sativa, quackgrass control with pronamide, effects on forage quality and animal performance . . . 127
Mefluidide, control of weeds in soybeans with . . . 42
Mesophyll cells, metabolic sites of action of fluridone in . . . 422
Mesquite, honey, and Macartney rose control with soil-applied herbicides . . . 280
Metabolic sites of action of fluridone in isolated mesophyll cells . . 422
Metabolism of 2,4-DB, by white clover (*Trifolium repens*) cell suspension cultures . . . 392
Methodology and terminology for the measurement of light in weed studies – a review . . . 437
Metolachlor on germination, growth, leucine uptake, and protein synthesis . . . 634
Metribuzin applications in fababeans . . . 691
Metribuzin, *Euglena gracilis* reactions to . . . 619
Metribuzin metabolism by soybeans . . . 267
Metribuzin, response of soybean . . . 192, 278
Metribuzin with trifluralin, performance, effect of incorporation methods and time of application . . . 64
Metriflufen toxicity to soybeans and johnsongrass . . . 675
Minutes of business meeting, WSSA, February, 1979 . . . 579
Mobility of fluridone in soil . . . 309
Model adsorbents, cations sorption of picloram by soil and . . . 257
Moisture on soil-incorporated diclofop . . . 83
Moisture sensor for maintaining herbicide solution a roller applicator . . . 559
Molinate, response of rice to . . . 219
Morphological development and germination of dwarf spikerush (*Eleocharis coloradoensis*) . . . 380
Movement of chlorpropham after application to soil for control of dodder (*Cuscuta* spp.) . . . 274
MSMA, *Euglena gracilis* reactions to . . . 619
MSMA, on *Chlorella* . . . 294

N

Napropamide persistence in soil . . . 151
Napropamide, pigweed susceptibility to . . . 189
Necrology committee report, WSSA, 1979 . . . 581
Nicotiana tabacum, herbicides on sensitivity to ozone . . . 167
Nitrogen fixation, herbicides on . . . 18
Nitrogen loss, foliar, as influenced by soybean postemergence herbicides . . . 545
Nutsedge, Purple and yellow, control with *Bactra verutana* in the greenhouse . . . 178
Nutsedge, yellow and purple, seed production and germination . . . 502
Nutsedge, yellow, competition and control in corn . . . 32
Nutsedge, yellow, control by cropping systems . . . 463

O

Oat, wild, control with flufenprop-methyl . . . 91
Oat, wild, response to diclofop-methyl . . . 212
Oats, dinitroaniline herbicides in . . . 371
Oats, wild, diclofop-methyl and MCPA interaction on . . . 202
Organic matter, soil, effect on phytotoxicity of *s*-triazine herbicides 158
Ornamentals, woody, oxadiazon for weed control in . . . 396
Oryza sativa, response to molinate . . . 219
Oxadiazon for weed control in woody ornamentals . . . 396
Oxyfluorfen, light requirement of . . . 88
Ozone, herbicides on sensitivity of tobacco to . . . 167

P

Paraquat for interrow weeding of strawberries . . . 385
Paspalum notatum control in centipedegrass . . . 346
Pasture renovation with herbicides . . . 342
Pastures, control of smutgrass in . . . 361
Pea chloroplasts, glyphosate does not inhibit photosynthetic electron transport and phosphorylation in . . . 684
Pea root rot suppression by dinitroanilines . . . 195, 467
Peach plantings, weed control in . . . 638
Peas, dinitroaniline herbicides in . . . 371
Pecan plantings, weed control in . . . 638
Persistence of annual applications of herbicides in winter-planted safflower (*Carthamus tinctorius*) . . . 655
Persistence of dinitroaniline herbicides in soil . . . 660
Persistence of fluridone in various soils . . . 631
Persistence, napropamide, in soil . . . 151
Phaseolus vulgaris, enhancement of CO_2 and ethylene production and cellulase activity by glyphosate in . . . 103
Phaseolus vulgaris, environmental and edaphic influences on alachlor selectivity on . . . 570
Phenology of hemp dogbane in Nebraska . . . 565
Phenoxyalkylcarboxylic acid degradation, by white clover cell suspensions . . . 389
Phosphorylation in pea chloroplasts, glyphosate does not inhibit . . 684
Photochemical reactions of isolated chloroplasts, effects of atrazine, cyanazine, procyazine . . . 300
Photoperiod on triclopyr, picloram, and 2,4,5-T translocation . . . 22
Photosynthetic capacity of itchgrass, shading effects . . . 549
Photosynthetic electron transport in pea chloroplasts, glyphosate does not inhibit . . . 684
Photosystem II inhibition in *Chlorella* . . . 232
Photosystem II inhibitors on thylakoid membranes of groundsel . . 216
Physalis angulata, control in soybeans . . . 133
Physiological responses of soybean (*Glycine max*) plants to metribuzin . . . 192
Phytotoxic effect of decaying quackgrass (*Agropyron repens*) residues . . . 595
Phytotoxicity, dinitroaniline, influenced by soil moisture and vaporization . . . 536
Phytotoxicity, glyphosate, effects of frost and maturity on . . . 110
Phytotoxicity, glyphosate, inhibition of . . . 575
Phytotoxicity, glyphosate, water quality and spray volume on . . . 38
Phytotoxicity of *s*-triazines, effect of soil organic matter on . . . 158
Picloram distribution in huisache . . . 527
Picloram, for musk thistle control . . . 651
Picloram effect on grain production and weed control . . . 493
Picloram sorption by soil . . . 257
Picloram translocation, temperature and photoperiod on . . . 22
Pigweed, redroot, interference in soybeans . . . 665
Pigweed, redroot, seasonal analysis of nonstructural carbohydrates . 374
Pigweed susceptibility to napropamide . . . 189
Pine establishment in grass with atrazine . . . 253
Pine, loblolly, herbaceous weed control with hexazinone . . . 583
Pine production in nursery seedbeds . . . 173
Pinus establishment in grass with atrazine . . . 253
Pinus production in nursery seedbeds . . . 173
Pinus taeda, herbaceous weed control with hexazinone . . . 583
Pisum sativum chloroplasts, glyphosate does not inhibit photosynthetic electron transport and phosphorylation in . . . 684
Pisum sativum, dinitroaniline herbicides in . . . 371
Pisum sativum root rot suppression by dinitroanilines . . . 195, 467
Plant growth retardants, injection methodology . . . 688
Plant water stress of soybean (*Glycine max*) and common cocklebur (*Xanthium pensylvanicum*): a comparison under field conditions 285
Planting date on growth of johnsongrass from seed . . . 554
Poa annua control with growth regulators . . . 224
Poa annua control in bermudagrass . . . 367
Poa annua, control in bermudagrass golf greens . . . 642
Poa pratensis turf, degradation of benefin and DCPA . . . 154
Poa pratensis turf, preemergence herbicide activity in . . . 141
Portulaca oleracea, numerical taxonomic study of . . . 96
Postemergence herbicides, soybean, foliar nitrogen loss and CO_2 equilibrium as influenced by . . . 545
Preemergence applied herbicides, *Ipomoea* and *Cassia* responses to . 531

P (Cont.)

Preemergence herbicide activity in Kentucky bluegrass turf 141
Prevention of EPTC-induced epicuticular wax aggregation on corn (*Zea mays*) with R-25788 47
Procyazine application, soybeans as rescue crop after 263
Procyazine on photochemical reactions of isolated chloroplasts . . 300
Pronamide, for quackgrass control in alfalfa, influence on forage quality and animal performance. 127
Propanil, response of soybean cultivars. 4
Prosopis juliflora var. *glandulosa* control with soil-applied herbicides 280
Protein synthesis, effects of metolachlor on 634
Prunus persica plantings, weed control in 638
Pteridium aquilinum control with asulam on Oregon forest land . . 589

Q

Quackgrass control in alfalfa with pronamide, effects on forage quality and animal performance 127
Quackgrass residues, phytotoxic effect. 595

R

R-24191, inhibition of photosystem II and *Chlorella* growth by . . 232
R-25788 plus EPTC, injury to corn 460
R-25788, prevention of EPTC-induced wax aggregation on corn. . . 47
Rapeseed, response to diclofop-methyl 212
Reactions of *Euglena gracilis* to fluometuron, MSMA, metribuzin, and glyphosate 619
Reduction of glyphosate-induced tillering in sorghum (*Sorgbum bicolor*) by several chemicals 69
Report of the soils terminology subcommittee of WSSA, December 1978 318
Reproductive biology of leafy spurge. 106
Rescue crop of soybeans following cyanazine and procyazine application. 263
Residues of decaying quackgrass, phytotoxic effect of. 595
Residues of simazine and hydroxysimazine in an orchard soil. . . . 238
Response of certain crops to glyphosate in irrigation water 658
Response of cotton (*Gossypium hirsutum*) to dicamba 604
Response of selected rice (*Oryza sativa*) lines to molinate 219
Response of sugarbeets (*Beta vulgaris*) and four weed speces to dinitramine 28
Response of weed seeds to ethylene and related hydrocarbons 7
Response of wild oat (*Avena fatua*), flax (*Linum usitatissimum*), and rapeseed (*Brassica rapa* and *B. napus*) to diclofop-methyl 212
Responses of *Ipomoea* spp. and *Cassia* spp. to preemergence applied herbicides 531
Retardants, plant growth, injection methodology. 688
Rhythmic leaf movements of some common weeds 401
Rice response to molinate 219
Roller applicator, electronic moisture sensor for maintaining herbicide solution on. 559
Root rot of pea, suppression by dinitroanilines 467
Root rot suppression in peas by dinitroanilines 195
Rosa bracteata control with soil-applied herbicides 280
Rose, Macartney, control with soil-applied herbicides 280
Rotational crop response to dinitroaniline herbicide applications. . 312
Rottboellia exaltata, distribution and temperature responses 77
Rottboellia exaltata, effects of simulated field temperatures and chilling on. 645
Rottboellia exaltata, shading effects on growth and photosynthetic capacity 549
Row spacing, soybean growth as affected by 562

S

Safflower, persistence of annual-applied herbicides in winter-planted crop. 655
Seed coat impermeability and germination of showy crotalaria (*Crotalaria spectabilis*) seeds 355
Seed, influence of planting data on growth of johnsongrass from. . 554
Seed production and germination in *Cyperus esculentus* and *C. rotundus* 502
Seed survival of dwarf spikerush after exposure to extreme temperatures 434
Seedbed tillage and herbicide influence on soybean (*Glycine max*) weed control and yield 520
Seedbeds, effect of herbicides on pine production 173
Seedhead suppression of *Poa annua* with growth regulators 224
Seedling development of Canada thistle 146
Seeds, weed, response to ethylene and hydrocarbons. 7
Senecio vulgaris, effect of photosystem II inhibitors on thylakoid membranes of 216
Sesbania exaltata competition in soybeans. 58
Sesbania exaltata, germination and emergence 290
Sesbania, hemp, germination and emergence 290
Setaria viridis var. *robusta*, analysis of nonstructural carbohydrates. 374
Setaria viridis varieties, interference in soybeans 665
Shading on growth and photosynthesis of itchgrass. 549
Simazine residues in orchard soil 238
Smutgrass (*Sporobolus poireti*) control in pastures with herbicides 361
Soil adsorption and diffusion of dinitroaniline herbicides 450
Soil detection and mobility of fluridone 309
Soil moisture influencing dinitroaniline phytotoxicity 536
Soil moisture on germination and emergence of downy brome . . . 625
Soil, movement of chlorpropham for control of dodder 274
Soil organic matter on phytotoxicity of *s*-triazine herbicides 158
Soil, persistence of dinitroanilines in 660
Soil persistence of napropamide. 151
Soil properties to predict fluridone herbicidal activity 456
Soil, simazine and hydroxysimazine residues 238
Soil sorption of exchangeable cations and picloram 257
Soil-applied herbicides for the control of honey mesquite and Macartney rose 280
Soil-incorporated diclofop, moisture on 83
Soils, persistence of fluridone in, under field and controlled conditions 631
Soils terminology subcommittee report, WSSA, December 1978 . . 318
Solution culture, soybean response to metribuzin in 278
Sorgbum (*bicolor*), reduction of glyphosate-induced tillering by chemicals. 69
Sorgbum halepense control, herbicide-crop rotation for. 479
Sorgbum halepense control in soybeans 119
Sorgbum halepense, illuminance and time on glyphosate accumulation 235
Sorgbum halepense, influence of planting date on growth from seed. 554
Sorgbum halepense, metriflufen toxicity to 675
Soybean, effect of planting date on velvetleaf competition 183
Soybean, effects of simulated field temperatures and chilling on . . 645
Soybean (*Glycine max*) cultivar response to metribuzin in solution culture 278
Soybean (*Glycine max*) cultivar response to propanil 4
Soybean (*Glycine max*) growth as affected by weed removal, cultivar, and row spacing 562
Soybean, growth inhibition of roots and shoots by dinitroanilines . 336
Soybean, influence of fluridone on early development of 321
Soybean, metabolism of metribuzin 267
Soybean, plant water stress of. 285
Soybean postemergence herbicides, foliar nitrogen loss and CO_2 equilibrium as influenced by. 545
Soybean responses to metribuzin 192
Soybean weed control and yield by seedbed tillage and herbicides 520
Soybeans, control of cutleaf groundcherry 133
Soybeans, control of johnsongrass 119

S (Cont.)

Soybeans (*Glycine max*) as a rescue crop following cyanazine and procyazine application . . . 263
Soybeans, growth and water use . . . 206
Soybeans, hemp sesbania competition in . . . 58

Soybeans, interference of redroot pigweed and robust foxtail in . . 665
Soybeans, metriflufen toxicity to . . . 675
Soybeans, weed control with mefluidide . . . 42
Species effects on diclofop selectivity . . . 679
Spikerush, dwarf, development and germination of . . . 380
Spikerush, dwarf, seed and tuber survival after exposure to extreme temperatures . . . 434
Sporobolus poiretii control in pastures . . . 361
Spot spraying for johnsongrass (*Sorghum halepense*) control in soybeans (*Glycine max*) . . . 119
Spray volume on glyphosate phytotoxicity . . . 38
Spring applications of trifluralin and metribuzin in fababeans . . . 691
Spurge, leafy, allelopathy of . . . 1
Spurge, leafy, distribution in United States . . . 509
Spurge, leafy, reproductive biology studies . . . 106
Statement of ownership . . . 000
Strawberries, glyphosate and paraquat for interrow weeding of . . . 385
Studies on the reproductive biology of leafy spurge (*Euphorbia esula*) . . . 106
Subsurface layered herbicides, for control of field bindweed in winter wheat . . . 332
Sugarbeet response to dinitramine . . . 28
Sugarbeets, weed control with cycloate and ethofumesate . . . 516
Suppression of pea root rot by dinitroanilines . . . 467
Surfactant on toxicity of metriflufen to soybeans and johnsongrass . . . 675
Survival of seed and tubers of dwarf spikerush (*Eleocharis coloradoensis*) after exposure to extreme temperatures . . . 434
Sustaining members, WSSA . . . ii, 251, 000

T

Tanoak (*Lithocarpus densiflorus*) leaf surface characteristics and absorption of triclopyr . . . 599
Taxonomic study, numerical, of *Portulaca oleracea* . . . 96
Temperature exposures, weed and tuber survival of dwarf spikerush . . . 434
Temperature on germination and emergence of downy brome . . . 625
Temperature, on triclopyr, picloram, and 2,4,5-T translocation . . . 22
Temperature responses and potential distribution of itchgrass (*Rottboellia exaltata*) in the United States . . . 77
Terminology and methodology for measurement of light in weed studies – a review . . . 437
Teucrium canadense control in corn . . . 615
Thatch in bermudagrass turf . . . 14
Thatch on preemergence herbicide activity in Kentucky bluegrass turf . . . 141
The distribution of leafy spurge (*Euphorbia esula*) and other weedy *Euphorbia* spp. in the United States . . . 509
The effect of surfactant and environment on the toxicity of metriflufen to soybeans (*Glycine max*) and johnsongrass (*Sorghum halepense*) . . . 675
The effects of shading on the growth and photosynthetic capacity of itchgrass (*Rottboellia exaltata*) . . . 549
The influence of three herbicides on the sensitivity of greenhouse-grown flue-cured tobacco (*Nicotiana tabacum*) plants to ozone . . . 167
The long-term effect of picloram and its residue on grain production and weed control . . . 493
The persistence of fluridone in various soils under field and controlled conditions . . . 631
Thistle, Canada, germination and seedling development . . . 146
Thistle, Italian and slenderflower, germination characteristics . . . 327
Thistle, musk, control with dicamba; picloram; 2,4-D . . . 651
Thylakoid membranes of groundsel, effect of photosystem II inhibitors on . . . 216
Tillage, seedbed, on soybean weed control . . . 520
Tobacco, herbicides on sensitivity to ozone . . . 167
Tomatoes, weed interference in . . . 11
Toxicity of metriflufen to soybeans and johnsongrass . . . 675
Toxicological investigations on *Galenia pubescens* . . . 506
Translocation, glyphosate, effects of frost and maturity on . . . 110
Translocation of dinitroaniline herbicides in oats and peas . . . 371
Translocation of triclopyr, picloram, and 2,4,5-T . . . 22
s-Triazines, effect of soil organic matter on phytotoxicity of . . . 158
Triclopyr absorption and leaf surface characteristics of tanoak . . . 599
Triclopyr distribution in huisache . . . 527
Triclopyr translocation, temperature and photoperiod on . . . 22
Trifluralin in fababeans . . . 691
Trifluralin with metribuzin, performance, effect of incorporation methods and time of application . . . 64
Trifolium pratense, herbicides on nitrogen fixation of . . . 18
Trifolium repens cell suspension, metabolism of 2,4-DB by . . . 392
Trifolium repens cell suspensions, degradation of phenoxyalkylcarboxylic acids by . . . 389
Triticum aestivum, control of field bindweed in . . . 332
Tuber survival of dwarf spikerush after exposure to extreme temperatures . . . 434
Turf, Kentucky bluegrass, degradation of benefin and DCPA . . . 154
Turf, Kentucky bluegrass, preemergence herbicide activity in . . . 141

U

Uptake, glyphosate, effects of frost and maturity on . . . 110
Uptake of fluridone, influence of site . . . 321
Use of adsorption coefficients and soil properties to predict fluridone herbicidal activity . . . 456

V

Vapor absorption and translocation of dinitroaniline herbicides in oats (*Avena sativa*) and peas (*Pisum sativum*) . . . 371
Vaporization of dinitroaniline, influencing phytotoxicity . . . 536
Velvetleaf competition with soybean . . . 183
Velvetleaf, effects of chilling . . . 473
Vernonia altissima control in pastures . . . 342
Vertical mowing and herbicide treatments on thatch in bermudagrass (*Cynodon dactylon*) turf . . . 14
Vicia faba, fall and spring applications of trifluralin and metribuzin in . . . 691
Volatility, dicamba . . . 486

W

Water quality on glyphosate phytotoxicity . . . 38
Water stress, soybean and common cocklebur, comparison under field conditions . . . 285
Waterprimrose, winged, control with fungal pathogens . . . 497
Wax, epicuticular, prevention on corn with R-25788 . . . 47
Weed and disease responses to herbicides in single- and double-row cotton (*Gossypium hirsutum*) . . . 444
Weed control, allelopathic cucumbers as an aid to . . . 54
Weed control in immature pecan (*Carya illinoensis*) and peach (*Prunus persica*) plantings . . . 638
Weed control in soybeans (*Glycine max*) with mefluidide applied postemergence . . . 42
Weed control in soybeans, tillage and herbicide on . . . 520
Weed control in sugarbeets (*Beta vulgaris*) with mixtures of cycloate and ethofumesate . . . 516
Weed interference in transplanted tomatoes (*Lycopersicon esculentum*) . . . 11
Weed removal, soybean growth as affected by . . . 562
Weed response to dinitramine . . . 28
Weed scientists – today and tomorrow . . . 349

W (Cont.)

Weed seeds, response to ethylene and hydrocarbons 7
Weed studies, methodology and terminology for measurement of light – a review 437
Weeds and sweetcorn grown on coarse-textured soils, effects of herbicides on 608
Weeds, biological control in Canada 242
Weeds, rhythmic leaf movements of 401
Wetting agent effects on diclofop selectivity 679
Wheat, winter, control of field bindweed in 332
Wild oat (*Avena fatua*) control with flufenprop-methyl 91
Woody ornamentals, oxadiazon for weed control in 396

X

Xanthium pensylvanicum, growth and water use 206
Xanthium pensylvanicum, plant water stress 285

Y

Yellow nutsedge (*Cyperus esculentus*) competition and control in corn (*Zea mays*) 32
Yield and quality of two cool-season grasses as affected by selected herbicides 415

Z

Zea mays, american germander control in 615
Zea mays, control of yellow nutsedge in 32
Zea mays, effects of simulated field temperature and chilling on . . 645
Zea mays, EPTC effects on growth 122
Zea mays, EPTC plus R-25788 injury as affected by plant age at treatment 460
Zea mays, grown on coarse-textured soils, effects of herbicides on. 608
Zea mays, prevention of EPTC-induced wax aggregation on, with R-25788 47
1-(m-*t*-butylacetamidophenyl)-3-methyl-3-methoxy urea, inhibition of photosystem II and *Chlorella* growth by 232
2,4-D effects on beaked hazel understories 162
2,4-D, for musk thistle control 651
2,4-DB metabolism, by white clover cell suspension 392
2,4,5-T translocation, temperature and photoperiod on 22
